

Learning Experience Schedule

Residents are scheduled for experiences throughout the year in order to allow for learning in various areas. Opportunities for electives are specifically intended to tailor the residency experience to the resident's needs. Residents may elect to work in a required area for more time to gain more confidence and skills (e.g., ambulatory care or internal medicine). Any changes to this schedule need to be in agreement with all preceptors involved, the RAC, and/or the RPD. See syllabi for additional information.

			When Learning Experience May Fall												
			July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	
Length	LNG	BLK													
Required															
1 week		X	Orient												
4 weeks		X		ICP											
4 weeks		X		IM											
4 weeks		X	PM												
3 wk then 2 days/ mon X 8 mon	X		PC					PC							
8 weeks	X			PACT											
8 weeks	X			AC											
4 weeks	X							MH							
3 weeks	X							HBPC							
3 weeks	X							CLC							
Weekly X 12 months	X		PD												
3 weeks	X							MUP							
PRN X 12 mon	X		Proj												
Elective															
3 months	X									TC					
6 weeks	X									*Other Elective Experiences (Acđ, IPT, Onc, Extended Experience in a Required Area)					
Encouraged as available										Vacation (total of 14 days earned)					

When timing of rotation is longer than stated learning experience: bar is showing time when required experience may fall (i.e. to accommodate scheduling multiple residents, preceptor scheduling conflicts). *Electives will be provided on a case-by-case basis. Residents should demonstrate sufficient progress in core rotations prior to completing electives.

Key: LNG = Longitudinal BLK = Block
